Land and Urbanization
Urban Expansion in Addis Ababa. Urban Expansion in Addis Ababa. Given Ethiopia's history of being generally politically sta- ble, it has become one of the main diplomatic centers of Africa. As such, the national government is essentially uprooting entire neighborhoods in favor of hotels, buildings, and high-rises, completely transforming the city's image to better the model of a globally com- petitive city and to bring in more revenue.

Urban Expansion in Addis Ababa
Health professionals have stressed that urbanization is of great concern in less developed communities. They have indicated that a rise in infectious disease may be expected, as the public health measures of appropriate sanitation and hygiene fail to be maintained or are never developed.

Urbanization - causes and consequences - Addis Standard
The primary negative impact of urbanization is the fast spread of urban areas into agricultural and woodland areas, often informally. Developing countries have faced enormous population movements from rural to major urban centers and this led to swelling informal settlements posing city's socio-economic challenges (Nouri A.

Given this, it is time that we explored the positive and negative effects of urbanization. Positive impact of urbanization: Safety: One of the main reasons for people to develop vast urban centers and one of the underlying need for rapid expansion was the most basic requirement safety. Urban centers made it possible for local governments to centralize defense, pool resources and defend the population against various threats and most of them successfully.

Positive and negative impact of Urbanization - Essay and ...
Abstract. The urban population in Ethiopia is increasing rapidly. If managed proactively, urban population growth presents a huge opportunity to shift the structure and location of economic activity from rural agriculture to the larger and more diversified urban industrial and service sectors. If not managed proactively, rapid urban population growth may pose a demographic challenge as cities struggle to provide jobs, infrastructure and services, and housing.
