The instant you see signs of fear when a wild bird first comes to your hand, hold your breath as long as you can and keep absolutely motionless. Never close your hand on a wild bird unless it is to pick up a sick or injured one. The instant you close your hand on a free bird, it is so frightened that when you open your hand again, it will fly as far away from you as fast as it can and will not return. If a bird wants to leave you while you are trying to tame it, let it go; do not follow it.

Hand Taming Wild Birds — Attracting and Feeding Wild Birds. Now that bird-feeding season is upon us, I ' d like to pass along some thoughts on one of the most pleasurable aspects of this hobby, the hand-feeding of wild birds. Strange as this may sound, it is actually quite simple to train a number of species to feed from the hand — assuming, that is, that you have patience and the ability to remain still in cold weather!
