 The OMC-140 was primarily developed as wind & mete- orological display. As such a display, the OMC-140 is the culmination of years of technology advances and invaluable customer feedback. From a single relative wind indicator up to a true and relative wind indicator with advanced alarm capability and a possibility of data storage.

OMC-140 Multifunctional TFT Display - PP Systems  
 The OMC140, because of its relative compactness regularly gets compared with larger Maksutovs and refractors, some costing over 8 times the cost of the OMC-140. We have not come across any refractor of the same aperture which outperforms it, if you know of one, please let us know.

JOHNSON EVINRUDE OMC WORKSHOP MANUAL ...  
 This original factory OEM manual covers all the information necessary to look up all your own part numbers from exploded views. Nice technical illustrations that clearly show each individual part. Part manuals are also a great help when overhauling your motor as you can see where things fit. This is a used manual in good overall condition.

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

Manual of Geotechnical Laboratory Soil Testing covers the physical, index, and engineering properties of soils, including compaction characteristics (optimum moisture content), permeability (coefficient of hydraulic conductivity), compressibility characteristics, and shear strength (cohesion intercept and angle of internal friction). Further, this manual covers data collection, analysis, computations, additional considerations, sources of error, precautionary measures, and the presentation results along with well-defined illustrations for each of the listed tests. Each test is based on relevant standards with pertinent references, broadly aimed at geotechnical design applications. FEATURES Provides fundamental coverage of elementary-level laboratory characterization of soils Describes objectives, basic concepts, general understanding, and appreciation of the geotechnical principles for determination of physical, index, and engineering properties of soil materials Presents the step-by-step procedures for various tests based on relevant standards Interprets soil analytical data and illustrates empirical relationship between various soil properties Includes observation data sheet and analysis, results and discussions, and applications of test results This manual is aimed at undergraduates, senior undergraduates, and researchers in geotechnical and civil engineering. Prof. (Dr.) Bashir Ahmed Mir is among the senior faculty of the Civil Engineering Department of the National Institute of Technology Srinagar and has more than two decades of teaching experience. Prof. Mir has published more than 100 research papers in international journals and conferences; chaired technical sessions in international conferences in India and throughout the world; and provided consultancy services to more than 150 projects of national importance to various government and private agencies.
