The noble cause — a commitment to "doing something about bad people" — is a central "ends-based" police ethic that can be corrupted when officers violate the law on behalf of personally held moral values. This book is about the power that police use to do their work and how it can corrupt police at the individual and organizational levels.

conclusion from the most telling analyses of police conduct is that the matter of police corruption is fundamentally one of ethics. That is to say, there will be some generally serious forms of conduct that it is easy to agree should be seen as ‘corrupt’. There are others, however, where much depends on the nature and

The Code of Ethics is a first for everyone who works in policing in England and Wales. It sets out the principles and standards of behaviour we expect to see from police professionals. It applies to every individual who works in policing, whether a warranted officer, member of police staff, volunteer or someone contracted to work in a police force.

The slippery-slope metaphor is a powerful way to think about police corruption. It recognizes the importance of police peers in encouraging corruption and the role played by the secretive elements of police culture. Police corruption and reform have been intertwined issues in the history of policing in the United States.
